Disclaimer

The factual information within this document is believed to be correct at the time of survey. Each site has been identified from approved planning applications. Whilst every effort is made to give accurate information no responsibility can be accepted for matters arising due to the information in this document being incorrect in any detail whatsoever. Marshal Scott – Chief Executive

1. INTRODUCTION

- 1.1 In line with Government priorities to help boost the supply of housing The National Planning Policy Framework (NPPF) sets out that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a five years' worth of housing against their housing requirements. It is expected that local planning authorities should have an identified five-year housing supply at all points during the plan period.
- 1.2 The Councils Housing Land Availability Schedule is updated every 6 months. This current assessment updates the previous Oct 2017 position and runs up to the 31st March 2018. It provides an assessment of housing land supply against the requirements in the Ribble Valley Core Strategy (adopted December 2014) and also assesses the 5-year housing land supply position.
- 1.3 Following an assessment of the Council's Housing Land Supply the Authority can demonstrate a 5.3 Year Supply with a 5% buffer and a 4.6 Year supply with a 20% buffer as outlined on pages 2 and 3.
- 1.4 The remainder of this schedule outlines the means by which the assessments are made to calculate the Housing Land Supply with a base date of 31st March 2018.
- 1.5 It should be noted that this document represents a specific position in time (as of the 31st of March 2018). The situation changes constantly as permissions are implemented, new permissions are granted and schemes amended.

5 YEAR SUPPLY AS OF 31ST March 2018 WITH A 5% BUFFER:

ALL SITES NOT STARTED	No. of Units
Sites approved but subject to Section 106 Agreements ¹	63
Sites with Planning Permission:	
Full Permission (market units only)	536
Outline Permission (market units only)	1240

2. FIVE YEAR HOUSING REQUIREMENT

Annualised Requirement

- 2.1 Policy H1 of the Ribble Valley Core Strategy sets an overall requirement of 5600 dwellings for the full plan period from 2008 – 2028 which equates to 280 dwellings per year. 2170 dwellings have been completed in the plan period to date (pg. 9); a ten year period. This gives rise to a shortfall of 630 ($(10 \times 280) - 2170$).

Buffer

- 2.2 Paragraph 47 of the National Planning Policy Framework states that there should be an additional buffer of 5% (moved forward from later in the plan period) to ensure choice and competition in the market for land. Furthermore, where there has been a record of persistent under delivery of housing, local planning authorities should increase the buffer to 20% to provide a realistic prospect of achieving the planned supply. This schedule includes both a 5% and 20% buffer for comparison to establish the Annualised Requirement as follows:

Annualised Requirement with a 5% buffer		
A	Planned Provision 2008-2028	5600
B	Annual Equivalent	280
C	Five year requirement (Bx5)	1400
D	Completions in the plan period 1 st April 2008 – 31 st March 2018	2170
E	Shortfall ($(10 \text{ years} \times 280) - 2170$)	630
F	Plus 5% Buffer (5% of C + E)	102
G	Total 5 Year Requirement (C+E+F)	2132
H	Annualised Requirement (G ÷ 5)	426

Annualised Requirement with a 20% buffer		
A	Planned Provision 2008-2028	5600
B	Annual Equivalent	280
C	Five year requirement (Bx5)	1400
D	Completions in the plan period 1 st April 2008 – 31 st March 2018	2170
E	Shortfall ($(10 \text{ years} \times 280) - 2170$)	630
F	Plus 20% Buffer (20% of C + E)	406
G	Total 5 Year Requirement (C+E+F)	2436
H	Annualised Requirement (G ÷ 5)	487

Summary

- 2.3 After adding the 5% buffer, the total housing requirement for the five year period 1st April 2017 – 31st March 2022 when deducting the number of completions is **2,132 dwellings**.

When adding the 20% buffer, the total housing requirement for the five year period 1st April – 31st March 2022 when deducting the number of completions is **2,436 dwellings**

3. ASSESSMENT OF HOUSING LAND POSITION

- 3.1 The monitoring of housing delivery requires the Council to record and update the progress of development on all sites with planning permission.
- 3.2 This aspect of the schedule takes into consideration housing sites granted planning permission, development progress on sites and the deliverability of sites in relation to the 5-year housing land supply requirement. In addition, pre-commencement conditions are considered as well as landowners and developers' intentions which have been established via contact by e-mail, phone or post in order to ascertain the most up-to-date position.

Sites with S.106 Agreements

- 3.3 The Council has agreed in principle to grant planning permission for residential development once a Section 106 agreement is completed on three sites. These sites have in turn been added to the 5 year supply as follows:

Address	Application No.	No. of Dwellings
Land off Union Street, Clitheroe	3/2017/0573	36
Land at Henthorn Road, Clitheroe	3/2017/0433	24
Plot 8 The Whins, Whins Lane, Read	3/2017/0931	3
Total		63

Sites with planning permission

- 3.4 Sites identified within the 5 year supply must be deliverable. For a site to be considered deliverable it must comply with paragraph 47 and footnote 11 of the NPPF:

“To be considered deliverable, sites should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years and in particular that development of the site is viable. Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years” (para. 47 of the NPPF).

- 3.5 Those sites that have planning permission and are considered deliverable are included within the five year supply.

Large Sites

- 3.6 Large sites with planning permission are considered in terms of their contribution to housing delivery in the five year period. The Councils assessment as to the amount of contribution from each site towards the housing land supply is based upon various

sources of information. The main one being the detail of the initial planning application whether at Outline or Reserved Matters stage, e-mails and telephone conversations directly with developers and recent Appeal Decisions.

- 3.7 In light of a recent Appeal Decision on land at Higher Road, Longridge for the erection of up to 123 dwellings (Appeal Ref. APP/T2350/W/17/3186969) the Council has reviewed the deliverability of the majority of large sites. The Council has therefore taken into account the Inspectors comments for each site, current applications that have been submitted and the status of each site i.e. completions and current sales. It is prudent to note that the base date for the Appeal was Oct 2017 therefore 9 months have elapsed since this decision.
- 3.8 Appendix A and B provides a list of all the large sites (started, or not started) within the Borough and a breakdown of the number of dwellings that the Authority consider will be delivered within the 5 year period.
- 3.9 The number of dwellings on large sites not started that are only considered deliverable beyond the five year period is **1462**. The number of dwellings on large sites that are under construction and only considered deliverable beyond the five year period is **299**.

Sites under Construction not currently active:

- 3.10 A number of small sites are currently not active and so are deducted from the five year supply. Letters were sent and phone calls made to establish the status of sites in which a large number have responded providing current updates.
- 3.11 However in some cases it was not possible to contact the applicant or they did not reply to letters and phone calls. In these cases those applications that have been determined and commenced more than 5 years ago but have not yet been completed have been taken out of the supply as follows:

New Build Under Construction (small sites)		
Address	Application No.	No. of Dwellings
Land adj. Alderleigh, Henthorn Road, Clitheroe	3/1994/0128	1
17 & 19 Waverleyn Road, Ramsgreave (Plot 3 & 4)	3/2009/0307	2
Conversions/change of use		
Trough House Farm, Lambing Clough Lane, Hurst Green	3/1995/0474	1
16,18,18A Well Terrace, Clitheroe	3/2008/0775	3
44-46 Berry Lane, Longridge	3/2012/0577	1
Hothersall Hall Farm, Hothersall Lane, Ribchester	3/2011/0324	1
Application with Full Planning Permission		
55 Pendle Road, Clitheroe	3/2012/1010	2
Total		-11

Allocated sites in Regulation 19 HED DPD

3.12 The Housing and Economic Development DPD is at submission stage and it is expected that the examination will take place later in the year. The Regulation 19 Plan allocates two sites to meet residual housing requirements. The first is on land at Mellor Lane, Mellor (HAL1), and the second is on land at Wilpshire (HAL2), equating to around 50 dwellings in total.

Small Sites Allowance

3.13 A small site allowance of 130 dwellings per annum is included as a future supply of housing land.

3.14 The NPPF states that local planning authorities may make an allowance for windfall sites in the five year supply if there is compelling evidence that such sites have consistently become available in the local area and that they will continue to provide a reliable source of supply.

3.15 The allowance is based upon an assessment of past development rates over a period of the last 10 years (31st March 2008 – 31st March 2018) and in accordance with definitions in the NPPF para. 48 with regards to windfall allowance. In this respect new build developments and conversions to dwellings were only considered when permission had been granted since 2008, and when they fell into the categories below:

- The dwellings were constructed or under construction at 31st March 2014 (i.e. the permission had been implemented. Lapsed permissions and permissions not started are excluded);
- The sites were within the settlement boundaries (as defined on the former Districtwide local plan);
- The site was a brownfield site; and
- The site is not allocated
- The site is not a residential garden.
- The site is within one of the Principal Settlements of Clitheroe; Longridge and Whalley where the Core Strategy seeks to direct the majority of housing development; and the Tier 1 settlements of Barrow, Billington, Chatburn, Gisburn, Langho, Mellor, Mellor Brook, Read and Simonstone (taken as a single settlement) and Wilpshire where a limited amount of development might be allowed in accordance with the Core Strategy.

3.16 The remaining 23 Tier 2 settlements and locations outside any settlement were not considered as the Core Strategy does not anticipate that a significant number of dwellings will come forward in these locations unless certain criteria are met.

3.17 Thresholds were also applied to ensure large sites did not skew trends as follows:

Clitheroe, Whalley and Longridge:	10 dwellings
Tier One Settlements:	5 dwellings

- 3.18 Monitoring a period of 10 years showed that a total of 259 dwellings were built or under construction in a 10 year period which met the above criteria. This amounts to an average of 26 per year. A five year requirement would be **130**.
- 3.19 It must be stressed that the total amount of 259 dwellings over the past ten years relates to those developments which meet the above criteria and have been completed or under construction. The number does not represent the total number of windfall sites that the Authority has permitted over the last ten years.
- 3.20 The windfall calculation will continue to be monitored, to show if it needs to be modified in the light of up to date trends. For the avoidance of doubt, the inclusion of a windfall allowance does not imply that planning permission will be forthcoming for a particular development.

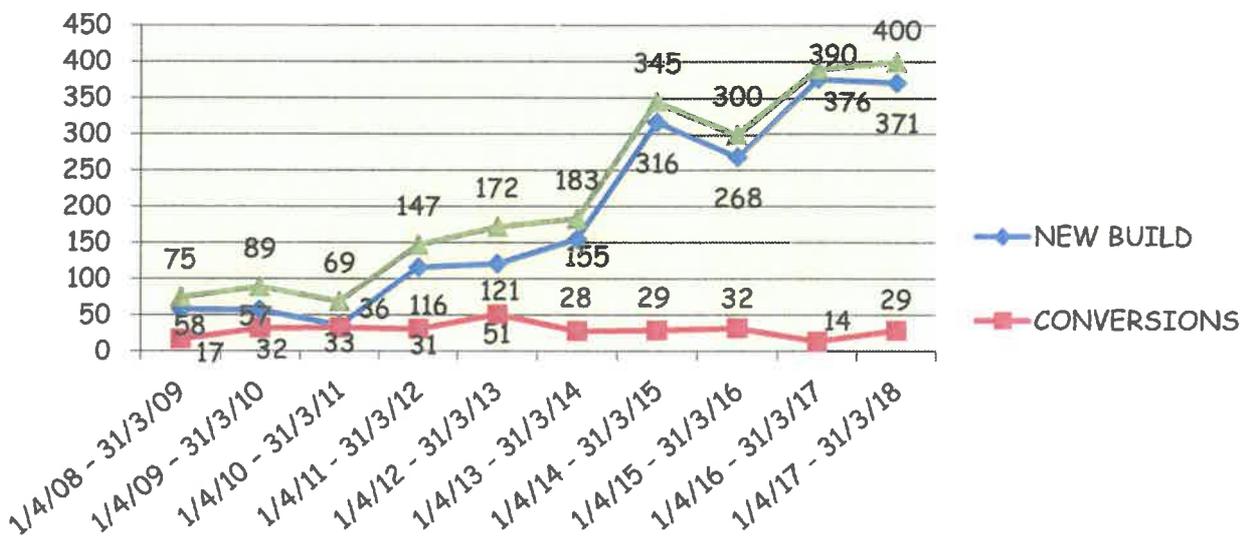

No. Dwellings completed or under construction on windfall sites 2008 – 2018:

TOTAL	603

AFFORDABLE COMPLETIONS

4. In the current housing land there are 3882 dwellings currently with planning permission and they are situated within Clitheroe, Longridge, Whalley and other parishes.

LOCATION OF CONSENTS

5. The Core Strategy was formally adopted at a meeting of the Full Council on 16 December 2014. Land for residential development will be made available to deliver 5,600 dwellings, estimated at an average annual completion target of at least 280 dwellings per year over the period 2008 to 2028. In terms of the calculation of housing supply, the Council adopt the Sedgefield approach.
6. Since 2008 a total of 2170 dwellings have been completed.
