attention of Mr. C. HUSK 5 AUG 2018

1st Sept 2018

Dear Mr Husk,

FAC

I am writing to add another voice to the multitude of Clutheroe people who are horrified at the prospect of yet more houses in Clutheroe and the Ribbles Valley.

Please imagine the town in another five years! Where will all the occupants of these proposed new dwellings go to work, go to school, attend the doctors etc? Clutheroe will be at a standstill. The roads will be completely locked down, the schools overflowing, the whole infrastructure will be unable to cope.

Time and again we boast that Clutheroe is an 'Historic Market Town' - this history is being swallowed by the dreadful new build culture!

This is not good enough for Clutheroe!

Whilst I may not be as eloquent
as some of your correspondents, I
nevertheless feel as strongly as
they do, and I fully endorse the
comments made in certain letters!

In particular the letter from
Robert Sharp Esq., Clitheroe born
and bred, as so many of us
are!

Yours sincerely
