I wish to raise the following objections to the above plan:-
1: 1670 additional houses for clitheroe would represent 42% of the ribble valley housing plan when clitheroe only represents 25% of the ribble valley population.
2: No firm plans for increased health and education provision within clitheroe. This would entail additional traffic movements to gain access to these services causing increased congestion on an already busy road system.
3: No plans to improve the current road network (see 2 above)
4: As a result of the above comments it would appear that the above plan would have the nett effect of reducing the quality of life within clitheroe for all residents which does not appear to be a very positive way to plan for the future of the town.

yours faithfully,
