Dear Sir/Madam

Ribble Valley Core Strategy 2008-2028 – A Local Plan for Ribble Valley

Broughton Parish Council would like to express concern regarding the above plan for the Ribble Valley. Until such time that the Broughton by-pass is in place and built, there will be continuing problems with large volumes of traffic in the village and surrounding areas. Any development which will have a direct impact on Broughton village cannot be supported at this time.

Broughton has now been declared an Air Quality Management site due to the high pollution levels in the village. Extra traffic will only exacerbate the pollution and endanger the future well being and quality of life to residents and people’s livelihoods in the village.

Yours sincerely
