Dear Sir,

I wish to protest about the building of 1,670 additional houses in Clitheroe as I believe the infrastructure plan is unsound. I think the plan has not dealt thoroughly enough with the proposals re. Utilities, Health Services, Transport, Leisure and Education and I believe that the plan is fragile and inadequate.

I am not totally against the building of new houses, but as Clitheroe makes up 25% of the Ribble Valley population it is grossly unfair to expect us to absorb more than 25% of any proposed new development.

With regard to transport you have obviously not been on Littlemoor Rd nor at the Littlemoor / Whalley Rd junction between 7.45am and 9a.m. Littlemoor Rd is now becoming a short cut to Ribblesdale school. The exit to Whalley Rd. is narrow and more problems will be caused when the new development at Primrose is completed.

I urge you to reconsider the building plans. In the words of Oliver Cromwell to the Scottish Church Assembly in 1650, “I beseech you to think it possible that you may be mistaken”

Yours faithfully
