Dear Sir

I am extremely concerned about the "Core Strategy" for future planning and development in the Ribble Valley.

I have examined the strategy and it would appear that there are no plans for the required supporting infrastructure such as transport, additional parking, additional doctors, additional schools (both primary and secondary). Not to mention the general roads to and from the area and the utilities which would undoubtedly be required by such an increase in numbers of people.

I hope that you will seriously consider the damage this planned strategy would do to Clitheroe and the surrounding area - especially regarding tourism and reduction in visitors to the area.

Yours sincerely
