R.V.B.C Forward Planning Team

Clitheroe must not be burdened with an unfair distribution of houses planned for the Ribble Valley and with it the ensuing problem of lack of infrastructure (viz roads, schools, hospital, sewage etc), all of which have been aired on numerous occasions but never properly addressed publicly or given the consideration they most urgently deserve. The character and appeal of Clitheroe as a market town would be lost if the houses were concentrated in one large development. There would be a chance of assimilating several smaller developments, but the level proposed would still swamp all services and infrastructure.

Clitheroe's allocation of houses should be no more than 25% of the total for the Ribble Valley. This is fair, just and logical.

Regards
