Date 12/06/12

Dear,

Core Strategy Consultation Members

LOCAL DEVELOPMENT FRAMEWORK – EVIDENCE BASE
POLICY G6 – ESSENTIAL OPEN SPACE

I write in full support of the committee that sat Thursday 17th June 2010, regarding the re designation of 178 sites of which 140 remain with the original policy and 38 sites to be re designated as appropriate to the guide lines that each 178 sites were subject to.

No changes should be made to Key statement paragraph 10.26. All evidence was submitted in the above report, with the same set guide lines used on all sites. Sites in a few areas should not be given any different guide lines or special policies. This statement should not include small private land, and should remain as the council have prepared.

Yours Sincerely
