

RIBBLE VALLEY BOROUGH COUNCIL REPORT TO OVERVIEW AND SCRUTINY COMMITTEE

Agenda Item No.

meeting date: 22nd June 2010
 title: Quarterly Performance Indicators Report – Quarter 4 (Outturn)
 submitted by: Chief Executive
 principal author: Michelle Haworth – Principal Policy and Performance Officer

1 PURPOSE

- 1.1 This is the fourth report of 2009-10 that details our performance against national and local performance indicators.
- 1.2 Regular performance monitoring is essential to ensure that the Council is delivering effectively against its agreed priorities, both in terms of the national agenda and local needs.

2 RELEVANCE TO THE COUNCIL'S AMBITIONS AND PRIORITIES:

- Council Ambitions:
 - Community Objectives:
 - Corporate Priorities:
 - Other Considerations:
- Monitoring our performance allows us to ensure that we are both providing excellent services for our community as well as ensuring we meet the Council's ambitions and objectives, which together formulate the corporate priorities. Monitoring the performance of our locally provided services provides the key means of assessing how well we are meeting our corporate ambitions and objectives.

3 BACKGROUND

- 3.1 Performance Indicators are an important driver of improvement and allow authorities, their auditors, inspectors and service users to judge how well services are performing.
- 3.2 The report comprises two sets of information as follows:
 - The outturn figures for all of the National Indicators (NIs), these are reported to Overview and Scrutiny Committee by exception for each of the quarters of 2009/10. Performance information is also provided for benchmarking purposes (where available) and our previous years data for comparison purposes (where available). Targets for service performance for the year are also provided and a 'traffic light' system is used to show variances of actual performance against the target as follows: Red: Service performance significantly below target (i.e. less than 75% of target performance), Amber: Performance slightly below target (i.e. between 75% and 99% of target), Green: Target met.
 - A summary of the Council's Local Performance Indicators (LPI's) for the same period as given above. These tables are provided to allow members to ascertain how well services are being delivered against our local priorities and against our ambitions and objectives, as listed in the Corporate Strategy. Performance is illustrated as above.
- 3.3 Analysis shows that of the 80 indicators that can be compared to target:
 - 63.75 % of PIs met target (green)
 - 26.25 % of PIs close to target (amber)
 - 10% of PIs missed target (red)
 - 28 PIs could not be compared to target (data not yet available/no target set/data only)

- 3.4 Analysis shows that of the 93 indicators where performance can be compared over the years:
- 41.9% of PIs improved
 - 20.4% of PIs stayed the same
 - 37.7% of PIs worsened
 - 15 PIs could not be compared to year on year (data not available/not collected)
- 3.5 Where possible audited and checked data has been included in the report. However, some data may be corrected following work of Internal Audit and before the final publication of the indicators on the Council's website. In addition, some of the outturn performance information has not been collected/not yet available before this report was produced. Information still required includes targets for some indicators which are to be reviewed and set by service managers. This included providing the rationale for the target that has been set.
- 3.6 A full review will be carried out over the next few months of all Local Indicators to ensure they are still of relevance and are not being collected for collections sake. The revised indicator suite will only include, in addition to the statutory set, Local Indicators with a focus on improving outcomes for local people, local businesses and local places rather than on processes and inputs. They should be useful for the effective monitoring of either:
- the service or
 - corporate priorities
- 3.7 Several indicators are categorised as 'data only' as they are not suitable for monitoring against targets – these are marked as so in the report.
- 3.8 It should be noted that some indicators, due to their nature, are only collected annually.

4 RISK ASSESSMENT

- Resources: None
- Technical, Environmental and Legal: None
- Political: None
- Reputation: It is important that correct information is available to facilitate decision-making.

5 IT IS RECOMMENDED THAT COMMITTEE

- 5.1 Consider the performance information provided and identify those areas where additional information is required.
- 5.2 Decide what action, if any, is required to improve poor performing Performance Indicators.

Michelle Haworth
Principal Policy and Performance Officer
