# Ward Profile – Edisford and Low Moor

# BACKGROUND

This ward profile is part of series providing key statistical data for each of the 24 wards which make up the district of Ribble Valley. The aim of this profile is to describe the key characteristics of each ward – demography, housing and employment in the context of the rest of Ribble Valley, regionally and nationally. This ward profile supplements the larger Ribble Valley profile, which provides a more comprehensive picture of the district.

The ward includes the following areas: the Edisford and Low Moor areas of Clitheroe.

## **Points of Interest**

Low Moor was built around 200 years ago for the workers of the then Cotton Mill which was built by Jeremiah Garnet in 1799. By 1900 the mill employed around 700 people who worked on 1,160 looms. With the slump in the cotton trade in the early 1900's the mill closed in 1930. The mill was one of the largest spinning and manufacturing mills in Lancashire.

Low Moor has a local club, the Low Moor Reading Room and Club, and local residents of Clitheroe and Low Moor come here to socialize. A new convenience shop has been built within the area.

The Edisford area of Clitheroe includes a swimming pool, tennis centre, a leisure centre, a caravan site and Edisford recreation area.

The ward has two borough Councillors – Cllr Sue Hind (Conservative) and Cllr Maureen Fenton (Labour)

Cllr Sue Hind 01200 859221 <u>cllr.shind@ribblevalley.gov.uk</u>

Cllr Maureen Fenton 01200 425964 <u>cllr.fenton@ribblevalley.gov.uk</u>

# **OVERVIEW**

• Edisford and Low Moor's ward population in 2011

Deprivation and Disability domain in the bottom 30% stood at 2,773. economic groups: ward. and in the Education, Skills and Training domain • The ward is far less sparsely populated (20.2 people Residents of small and mid-sized towns with strong Just over 24.7% of residents have no gualifications; bottom 40%. The other LSOA is in the Living per hectare) than the average for the borough (1 local roots this is lower than the Ribble Valley figure of 18% and Environment domain bottom 40%. much lower than the national figure of 27%. person per hecatare). Residents with sufficient incomes in right-to-buy • The ward has a lower percentage of residents aged 5 social housing • 25.6% of the residents of the ward have a level 4 to 19 and 30 to 44 compared to the national, educational qualification compared to nearly 34% in • Owner occupiers in older-style housing, typically in Lancashire and district averages. Ribble Valley and only 25% in Lancashire. ex-industrial areas • 96.47% of residents in the ward are White. · Elderly people reliant on state support Residents of small and mid-sized towns with strong local roots • Middle income families living in moderate suburban semis Population Deprivation Education Mosaic • 68.54% of working age people (16-74) in the ward • 79.3% of respondents in the ward indicated their day Recorded crime in Edisford and Low Moor is 36.4 per • The ward consists of 1.217 households, a decrease to day activities are not limited due to health or of 5 between the 2001 and 2011 Census. are classed as economically active. 1,000 population compared to 31.5 as the Ribble disability, this is a slightly higher rate than the Valley district average and 63.5 as the Lancashire • 69.1% of households are owner occupiers. The average for the borough with 83.29%. 10.13% County average (March 2014 – February 2015). rented sector consists of 28.7% of households, with indicated they were limited a lot. • There were 212 calls to the Police, 172.7 calls to the majority being social rented (other) stock. • A high percentage of respondents (78.87%) in the Ambulance services and 9 calls to Fire and Rescue Edisford and Low Moor has a high percentage ward rate their general health as good or very good. services per 1,000 population in the ward. (47.58%) of semi-detached properties. • In the same period there were 48.7 calls per 1,000 population made to the Police regarding anti-social behaviour. Employment Health Housing Crime RIME

## 2 **DEPRIVATION**

The Index of Multiple Deprivation 2015 (IMD) measures deprivation down to Lower Super Output Area (LSOA) level – areas containing around 1,500 people. 32,482 LSOAs (nationally) make up the IMD with each area being scored across 8 domains (see below) then ranked from most to least deprived, with the 326 English districts also being ranked. Ribble Valley is made up of 40 LSOAs.

| LSOA      | Ward                  | Index of<br>Multiple<br>Deprivation<br>Decile (IMD) | Income<br>Decile | Employment<br>Decile | Health<br>Deprivation and<br>Disability Decile | Crime<br>Decile | Education,<br>Skills and<br>Training<br>Decile | Barriers to<br>Housing and<br>Services<br>Decile | Living<br>Environment<br>Decile |
|-----------|-----------------------|---|------------------|----------------------|--|-----------------|--|--|---------------------------------|
| E01025329 | Edisford and Low Moor | 5   | 5                | 4                    | 3  | 8               | 4  | 9  | 8                               |
| E01025330 | Edisford and Low Moor | 6   | 6                | 5                    | 5  | 6               | 7  | 9  | 4                               |

#### (where 1<sup>st</sup> decile is most deprived, 10<sup>th</sup> decile is least deprived)

The table above shows the eight IMD domains split by LSOA and ranks all LSOAs nation-wide. Those areas most deprived are ranked in the top 10% - the 1<sup>st</sup> decile (red) and the least deprived are the higher numbers (green).

As can be seen Edisford and Low Moor has one LSOA in the Health Deprivation and Disability domain in the bottom 30% and in the Education, Skills and Training domain bottom 40%. The other LSOA is in the Living Environment domain bottom 40%.

#### What do the Ranks mean?

Education Skills and Training - measures the extent of deprivation in terms of education, skills and training in an area. The indicators are structured into two sub-domains: one relating to children and young people and one relating to adult skills.

Crime - measures the rate of recorded crime in an area for four major crime types representing the risk of personal and material victimisation at a small area level.

Employment - measures employment deprivation in an area conceptualised as involuntary exclusion of the working age population from the labour market.

Barriers to Housing and Other Services - measures the physical and financial accessibility of housing and key local services. The indicators fall into two sub-domains: 'geographical barriers', which relate to the physical proximity of local services, and 'wider barriers' which includes issues relating to access to housing such as affordability.

Health and Disability - measures premature death and the impairment of quality of life by poor health. It considers both physical and mental health. The domain measures morbidity, disability and premature mortality but not aspects of behaviour or environment that may be predictive of future health deprivation.

Income - measures the proportion of the population in an area experiencing deprivation related to low income.

Living Environment - measures the quality of individuals' immediate surroundings both within and outside the home. The indicators fall into two sub-domains: the 'indoors' living environment, which measures the quality of housing, and the 'outdoors' living environment which contains two measures relating to air quality and road traffic accidents.

# 3 MOSAIC DATA

Mosaic UK is Experian's system for classification of UK households. It is one of a number of commercially available geodemographic segmentation\_systems, applying the principles of geodemography to consumer household and individual data collated from a number of governmental and commercial sources. The current version, Mosaic UK 2009, classifies the UK population into 15 main socio-economic groups and, within this, 67 different types.

Mosaic has found application outside their original purpose of direct marketing, including governmental estimates and forecasts, and it is also used extensively in understanding local service users. Mosaic also introduced Mosaic Public Sector with more politically correct segment names.

| Mosaic 2010 Classifications |   |  |   |   |  |   | 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 | AND WEST BRADFORD              | 5                   | BI Shorl | PF CF                                  |       |
