Disclaimer

The information within this document is believed to be correct at the time of survey. Each site has been identified from approved planning applications. Whilst every effort is made to give accurate information no responsibility can be accepted for matters arising due to the information in this

1. INTRODUCTION

- 1.1 Data presented in this document reflects the Council's Housing Land Supply position at 31st March 2024, taking into account the updated National Planning Policy Framework (NPPF - December 2024). Information is provided on context, the methodology and assumptions used, which are based on national planning policy and guidance.
- 1.2 The National Planning Policy Framework (NPPF) ¹sets out that Local Planning Authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a five years' supply of housing against their housing requirements. It is expected that local planning authorities should have an identified a five-year housing supply at all points during the plan period.
- 1.3 The advisory starting point for the methodology used when calculating housing land supply is the NPPF and an extract of this is shown below (NPPF footnotes removed – please see link below for full document):

78. [...] Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old. The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

a) 5% to ensure choice and competition in the market for land; or

b) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply; [...]

79. To maintain the supply of housing, local planning authorities should monitor progress in building out sites which have permission. Where the Housing Delivery Test indicates that delivery has fallen below the local planning authority's housing requirement over the previous three years, the following policy consequences should apply:

a) where delivery falls below 95% of the requirement over the previous three years, the authority should prepare an action plan to assess the causes of under delivery and identify actions to increase delivery in future years;

b) where delivery falls below 85% of the requirement over the previous three years, the authority should include a buffer of 20% to their identified supply of specific deliverable sites as set out in paragraph 78 of this framework, in addition to the requirement for an action plan;

c) where delivery falls below 75% of the requirement over the previous three years, the presumption in favour of sustainable development applies, as set out in footnote 8 of this Framework, in addition to the requirements for an action

¹ [National Planning Policy Framework - GOV.UK](https://www.gov.uk/government/publications/national-planning-policy-framework-2024/national-planning-policy-framework-2024)

plan and 20% buffer.'

- 1.4 For large sites, typically with 100 or more completions outstanding, the Council has contacted developers, landowners, and agents to try and establish the delivery of sites.
- 1.5 It should be noted that this document represents a point in time (as of the 31st March 2024) and the Council's housing supply changes constantly as permissions are implemented, new permissions are granted, and schemes amended.

2. HOUSING REQUIREMENT

- 2.1 Within the Ribble Valley, the current adopted plan comprises:
- Ribble Valley Core Strategy (2014)
 - Housing and Economic Development DPD (2019) (HED DPD)
 - Longridge Neighbourhood Plan 2028
- 2.2 The Core Strategy was adopted in December 2014 and is the principal document relating to the supply of housing in the Ribble Valley, requiring 5600 net additional dwellings for the full plan period from 2008 – 2028 (an average of 280 per year). However, given changes that have been made to the NPPF and subsequent guidance in relation to determining housing need through the 'Standard Method', those targets are now superseded, with an annual requirement now set at 305 homes.
- 2.3 In the reported monitoring period (1st April 2023 – 31st March 2024) 349 dwellings have been completed. This figure is above the forecasted completions figure as illustrated in the housing trajectory for the same period found on pages 11 and 12 of the 'Housing Position Paper'², published in December 2018 as part of the Council's evidence in relation to the examination of the HED DPD.
- 2.4 The Council is preparing a Local Plan and policies map which will replace the Core Strategy and the HED DPD and identify sites for new development and provide policies for assessing planning applications. The timings for the new Local Plan are set out within the published Local Development Scheme (LDS)³

Annual Requirement

- 2.5 In line with the NPPF, because Ribble Valley's strategic policies are more than five years old, the local housing need (LHN) figures should be used as the housing requirement in the calculation of the five-year supply until such time as an updated Local Plan is in place. The LHN has been calculated as 305 new homes per annum.

Buffer

- 2.6 The 2023 Housing Delivery Test (December 2024⁴) published by the Government covers the previous 3 financial years (2020-21, 2021-22 and 2022-23). This, in conjunction with the Council's own monitoring data confirms that Ribble Valley delivered 425% of the required number of homes over the previous three years. [**Note:** The published Housing Delivery Test states that that Ribble Valley delivered 475% of the required number of homes over

² [housing-position-statement-5-dec-2018](#)

³ <https://www.ribblevalley.gov.uk/local-development-scheme/local-development-scheme-lds>

⁴ [Housing Delivery Test: 2023 measurement - GOV.UK](#)

the previous three years however the data for 2020-21 and 2022-23 does not reflect the Councils data. The correct figures for these years has been used to calculate the actual housing delivery percentage]. As such the Council has met the test of delivery and there is no evidence of housing 'under-delivery' in Ribble Valley. In the case of Ribble Valley, in accordance with para 78 of the NPPF, a buffer of 5% is applied to the housing need calculation.

2.7 The table below shows the annualised requirement using the standard methodology with a 5% buffer.

Table 1- Local Housing Need (LHN) with a 5% Buffer		
A	Local Housing Need (LHN)	305
B	Five-year requirement (Ax5)	1,525
C	Plus 5% Buffer (5% of B)	76.25
D	Total 5 Year Requirement (B+C)	1,601.25
E	Annualised Requirement (D ÷ 5)	320.25 (320)

2.8 For comparison, the table below shows the annualised requirement based on the adopted Local Plan Figure of 280 dwellings per annum.

Table 2- Local Plan Figure with a 5% Buffer		
A	Planned Provision 2008-2028	5600
B	Annual Equivalent	280
C	Five-year requirement (Bx5)	1400
D	Plus 5% Buffer (5% of C)	70
E	Total 5 Year Requirement (C+D)	1470
F	Annualised Requirement (E ÷ 5)	294

3. IDENTIFYING THE FIVE-YEAR SUPPLY AS OF 31st MARCH 2024

3.1 Tables 4-6 of this report categorise the large sites (over 0.4 hectares / more than 10 dwellings) into the following:

- Sites with Full Planning Permission
- Sites with Outline Permission
- Sites in which Development Has Commenced

3.2 The number of dwellings included within the 5-year supply and the number expected to be delivered beyond the 5-year period has been ascertained by gathering evidence from landowners, agents, and developers where appropriate. A reference has been applied to each site and is noted in the last column of tables 3, 4, 5 and 6. This reference can then be used to find a particular piece of evidence on delivery within table 8 and Appendix C of this document.

3.3 Appendix B of this document outlines in more detail the expected delivery for all large sites (over 0.4 hectares/more than 10 dwellings).

Windfall / Small Sites Allowance

3.4 Paragraph 73 of the NPPF states that local planning authorities may make an allowance for windfall sites in the five-year supply if there is compelling evidence that such sites have consistently become available in the local area and that they will continue to provide a reliable source of supply. Since the Henthorn Road (Clitheroe) Planning Appeal Decision (Appeal Ref: APP/T2350/W/19/3221189) the Council has calculated its windfall allowance on small sites (under 0.4 hectares / under 10 dwellings) by using the figure for small-sites completions in Ribble Valley over the previous years.

3.5 Appendix D outlines the number of completions on small sites over the last year. Table 8 provides information on completions within the Ribble Valley on small sites over the last 10 years, where it is shown that there have been 464 dwellings completed between 2014 and 2024. The authority has looked back at small-sites delivery over 10 years, instead of a 5-year period used in previous housing supply calculations, in recognition of the impact on development caused by the pandemic. The average small site completions over these 10 years is 46.4 (46) which is considered to be a realistic number going forward. This figure has been multiplied by 5 to give the small sites contribution figure of 230.

- 3.6 The small sites contribution will continue to be monitored at the point of publishing each subsequent Housing Land Availability Schedule.

C2 Uses

- 3.7 In its guidance on how to calculate a five-year housing land supply, the PPG⁵ states that local planning authorities should ‘count housing provided for older people, including residential institutions in Use Class C2, as part of their housing land supply’ paragraph 26. The Council has therefore reviewed recent permissions and completions of accommodation in C2 use.
- 3.8 In determining the level of housing contribution that C2 uses make to housing land supply, the Council recognises that an individual bed space may not necessarily replace an individual unit of C3 accommodation and the PPG confirms that C2 contribution is based on the amount of accommodation released in the housing market
- 3.9 At the time of its completion, the 2021 Census estimated that there were 51,459 adults (aged 16 or over) within 26,746 households in Ribble Valley. This provides a ratio of about 1.9 adults per household. The number of dwellings generated by accommodation in C2 use can therefore be derived by dividing the number of bed spaces by 1.9.

Table 3 C2 Permissions					
Application Reference	Site Address	Number of bedrooms	Contribution to housing supply	No. of Dwellings added to The 5-Year Supply	Evidence Basis
3/2023/0305	Higher Standen Farm	68	36	36	EV60
3/2023/0153	Old Row Whalley Road Barrow	66	35	35	EV61
TOTAL		134	71	71A	

Allocated Sites

- 3.10 Following the adoption of the Core Strategy in December 2014 the Council prepared a Housing and Economic Development, Development Plan Document (HED DPD) which outlined detailed policy coverage for matters relating to housing and economic development to fully implement the policies of the Core Strategy. The plan was adopted on the 15th October 2019⁶.

⁵ [Housing supply and delivery - GOV.UK](#)

⁶ [hed-dpd-](#)

3.11 Land has been allocated for residential development to meet housing requirements in the plan period (2008-2028) on seven sites as follows:

Table 4 Allocated Sites					
Site Allocation Reference	Site Area	Site Address	No. of Dwellings Anticipated	No. of Dwellings added to The 5-Year Supply	Evidence Basis
HAL1	0.29ha	Land off Mellor Lane (adjacent to Weavers Fold), Mellor	18	0	EV48
HAL2	5.28ha	Land at Wilpshire (Salesbury View) -	32	75	EV49
HAL3	0.7ha	Land at Chatburn Road, Clitheroe – Site complete	20	0	EV50
HAL4	1.7ha	Land off Hawthorne Place, Clitheroe – Included in permissions below	40	0	EV51
HAL5	5ha	Land at Highmoor Farm, Clitheroe – Allocated within permissions below	100	0	EV52
HAL6	0.4ha	Land South of Laycocks Farm, Langho – The Ferns	10	0	EV53
HAL7	0.7ha	Land at Haugh Head, Whins Lane, Read & Simonstone	20	0	EV54
			TOTAL	75 B	

3.12 Of the seven sites allocated for development, only one site has been added to the housing supply based upon the availability of evidence obtained to establish the deliverability of these sites.

4. CONTRIBUTION OF IDENTIFIED SITES TOWARD 5 YEAR HOUSING SUPPLY

Table 5 Sites With Full Planning Permission							
LOCATION	No. of Dwellings Granted Permission	Developer	HA	Application Number	Dwellings delivered <u>beyond</u> the 5- year period	Dwellings included <u>within</u> the 5- year supply	Evidence Basis

5. SMALL SITES ALLOWANCE

Table 8 – Completions On Small Sites in The Period 01.04.2014 – 31.03.2024		
Year	Total Dwellings	Small Site Dwellings
1 st April 2014 – 31 st March 2015	345	62
1 st April 2015 – 31 st March 2016	300	60
1 st April 2016 – 31 st March 2017	390	63
1 st April 2017 – 31 st March 2018	400	54
1 st April 2018 – 31 st March 2019	412	53
1 st April 2019 – 31 st March 2020	559	45
1 st April 2020 – 31 st March 2021	453	31
1 st April 2021 – 31 st March 2022	499	38
1 st April 2022 - 31 st March 2023	546	41
1 st April 2023 – 31 st March 2024	349	17
Total (2014 – 2024)	4253	464
Average per year (2014 – 2024)	425	46 (230 F)

6. FIVE YEAR SUPPLY AS OF 31st MARCH 2024

6.1 The total supply figure is calculated by adding the number of expected completions over the next five years on:

- C2 Permissions (A)
- Allocated sites (B)
- Large sites with Full Permission, not yet commenced (C)
- Large sites with Outline Permission (D)
- Large sites that have commenced (E)
- Small sites (F)

The Total Supply is:

$$71 (A) + 75 (B) + 48 (C) + 75 (D) + 1110 (E) + 230 (F) = 1609 \text{ Dwellings}$$

6.2 This above figure is then divided by the annualised requirement to establish the five-year supply. For the benefit of analysis two calculations have been made:

- Calculation A - The 5-year supply based on Local Housing Need (LHN)
- Calculation B - The 5-year supply based on the Core Strategy figure

Calculation A - Five Year Supply using the Standard Methodology (SM)

6.3 The Annualised Requirement using the Standard Methodology is 320 dwellings per year. Therefore the 5-year supply is calculated as follows:

$$\text{CALCULATION A} = \text{TOTAL SUPPLY} \div \text{ANNUALISED REQUIREMENT} = 5.03 \text{ Year Supply}$$

Calculation B - Five Year Supply using the Core Strategy figure

6.4 The Annualised Requirement using the Core Strategy figure is 294 dwellings per year. Therefore the 5-year supply is calculated as follows:

$$\text{CALCULATION B} = \text{TOTAL SUPPLY} \div \text{ANNUALISED REQUIREMENT} = 5.47 \text{ Year Supply}$$

7. ASSESSMENT OF HOUSING LAND POSITION – SENSE TESTING

- 7.1 The monitoring of housing delivery requires the Council to record and update the progress of development on all sites with planning permission.

Large Sites (Over 0.4 hectares / More than 10 dwellings)

- 7.2 Sites identified within the 5-year supply must be deliverable as per paragraph 72 of the NPPF. For a site to be considered deliverable it must comply with the definition as outlined within the Glossary of the NPPF:

Deliverable:

To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.

- 7.3 Of the large sites (over 0.4 hectares / more than 10 dwellings) that have planning permission, typically with more than 100 outstanding completions, the Authority has sought clarification from developers or agents on expected completion rates. The expected delivery of sites can be found at Appendix B of this report.

Completions On Large Sites Last Year (01.04.23 – 31.03.24)

- 7.4 To further substantiate the expected delivery on some of the large sites within the Borough a review of actual completions on these sites in the previous years has been made and the results are as follows:

Table 9 Completions on Large Sites 1st April 2023 – 31st March 2024			
Site Name	Application No.	Developer	Number of Completions
EV6 – Spout Farm, Longridge	3/2020/0309	Create Homes	8
EV7 – Chipping Lane, Phases 2 & 3	3/2018/0975	Barratt	31
EV8 – Lawsonsteads, Whalley Phase 2	3/2018/0914	Laurus Homes	29
EV9 - Oakhill College, Wiswell Lane, Whalley	3/2018/1124	Oakhill Housing	2
EV10 – Standen Phases 2,3 & 4	3/2019/0953	Taylor Wimpey	65
EV11 – Land off Sheepfold Crescent, Barrow	3/2018/0910	Highbrook Homes	7
EV12 – Henthorn Road, Clitheroe	3/2018/0688	Gladman	22
EV18 – Whalley Road, Barrow, Parcel A	3/2017/0064	Redrow Homes & Harwood Homes	4
EV19 – Whalley Road, Barrow, Parcel B	3/2019/0012	Redrow Homes & Taylor Wimpey	34
EV21 – Land East of Clitheroe Road, Barrow	3/2018/0500	Reilly Developments	2
EV25 – Land at Waddington Road, Clitheroe	3/2018/1081	Barratt & DWH	29
EV34 – Compass Drive and Northcote Park, Land off Longsight Road	3/2018/0844	Pringle Homes	9

EV36 – Chapel Hill, Longridge	3/2011/1071	Stockport Developments	21
EV39 – Preston Road, Longridge	3/2018/0105	Kier	20
EV46 – The Moorcock Inn, Waddington	3/2018/0344	Pendle View Developments	2
EV51 – Land off Hawthorne Place, Clitheroe	3/2022/0087, 3/2019/1104	Persimmon	23
EV56 – Queen Mary Terrace, Calderstones Park, Whalley	3/2021/0076	Prospect Homes	16
EV57 – Land off Dogwood Lane, Barrow	3/2019/1085	Redrow	4
EV60 – Whalley Road, Barrow (Allotment Site)	3/2018/0924	Redrow	4

APPENDIX A- Standard Methodology Calculation

The following calculation uses the standard method as described in National Planning Practice Guidance⁷.

Step 1 - Setting the baseline: 0.8% of existing housing stock for the area

Set the baseline using the value of existing housing stock for the area of the local authority⁸ (Table 125: dwelling stock estimates by local authority district). The baseline is 0.8% of the existing housing stock for the area, and the most recent data published at the time should be used.

- For Ribble Valley:
 - Existing Stock = 29,730
 - 0.8% = 237.84

Step 2 - An adjustment to take account of affordability

The housing stock baseline figure (as calculated in step 1) is then adjusted based on the affordability of the area. The affordability data used is the median workplace-based affordability ratios⁹, published by the Office for National Statistics at a local authority level. The mean average affordability over the five most recent years for which data is available should be used.

No adjustment is applied where the ratio is 5 or below (this is not the case for Ribble Valley). For each 1% the ratio is above 5, the housing stock baseline should be increased by 0.95%. An authority with a ratio of 10 will have a 95% increase on its annual housing stock baseline.

Where an adjustment is to be made, the formula is as follows:

Adjustment Factor equals ((five year average affordability ratio minus 5) divided by 5) multiplied by 0.95 plus 1

⁷ [Housing and economic needs assessment - GOV.UK](#)

⁸ [Live tables on dwelling stock \(including vacants\) - GOV.UK](#)

⁹ [House price to workplace-based earnings ratio - Office for National Statistics](#)

Table 10 - Average Affordability Ratio in Ribble Valley

YEAR	Affordability Ratio
2024	6.23
2023	6.27
2022	7.15
2021	6.58
2020	6.22
AVERAGE	6.49

Adjustment factor for Ribble Valley equals 1.2831

Minimum annual local housing need figure equals housing stock baseline multiplied by adjustment factor, which equals 237.84 multiplied by 1.2831, which equals 305.17 (305 dwellings to the nearest whole dwelling)

APPENDIX B - Large Sites Trajectory

APPENDIX C- Additional Evidence acquired and assumptions in regard to delivery of large sites over the next 5 years.

SITE	Evidence of Delivery ref. no	EVIDENCE + ASSUMPTIONS
Spout Farm, Preston Road, Longridge	EV6	<p>Application 3/2016/0580 was granted full permission in May 2017 for the development of 34 houses. Development is nearly completed, with our records indicating there are just 2 properties remaining to be completed.</p> <p>The authority expects both properties to be completed within 5 years</p>
Land East of Chipping Lane, Longridge, Preston – Phases 2 & 3	EV7	<p>Reserved matters application was granted for the development of 193 dwellings in April 2019 through planning application 3/2018/0975. This was increased to 198 dwellings and planning application 3/2021/1134 granted permission for an additional 47 dwellings. Development is under way and our records indicate there are 124 dwellings remaining to be completed.</p> <p>The authority expects all 124 dwellings to be completed within the next 5 years</p>
Lawsonsteads, Whalley (Phase 2)	EV8	<p>Application 3/2018/0914 granted full consent for the development of 188 dwellings in September 2019. Development has commenced and our records indicate that 55 dwellings have been completed. 133 dwellings remain. The developer (Lovell) expects the site to be completed by March 2027.</p> <p>The authority therefore expects all 133 dwellings to be completed within 5 years</p>
Oakhill College, Wiswell Lane, Whalley	EV9	<p>Since the approval of the full application for 8 dwellings (3/2019/1124), the application was re-submitted and approved on 13th January 2021 to account for the amendment of the house type of Plot 7. Our records indicate there is still one property to be completed</p> <p>The authority expects this remaining dwelling to be completed within 5 years</p>

Standen, Phases 2, 3 & 4; Land at Pendle Road, Clitheroe	EV10	<p>Reserved matters application 3/2019/0953 granted permission for 426 dwellings in March 2020. Development is now under way on this site and our records indicate that 345 dwellings remain to be completed. Evidence received from Taylor Wimpey supports the assumption development will be completed within 5 years</p> <p>The authority therefore expects all remaining dwellings to be completed within 5 years</p>
Land off Sheepfold Crescent, Barrow	EV11	<p>On 6th November 2020 approval was granted for a reserved matters application (3/2020/0332) for the erection of 20 bungalows for the elderly and 6 affordable apartments (26 total dwellings). 7 of these dwellings have been completed, and development of the other 19 is under way</p> <p>The authority expects all 19 remaining dwellings to be completed within 5 years.</p>
Standen, Phases 5 & 6, Land at Pendle Road, Clitheroe	EV14	<p>Outline planning permission granted permission for 1040 residential dwellings in total. Taking into account Phases 1,2,3 & 4 there are 386 dwellings remaining to be completed.</p> <p>In line with completion rates on previous phases of the development the authority anticipates 25 dwellings will be completed in April 28-March 29 on this phase</p>
Land South West & West of Whalley Road, Barrow – Parcel B	EV19	<p>Full consent was granted in September 2019 for 233 dwellings on Parcel B of this development through planning application 3/2019/0012. This is part of the larger site granted permission under application 3/2012/0630. Development is nearly completed and our records indicate there are 8 dwellings remaining to be completed.</p> <p>The authority expects all 8 of these dwellings to be completed within the next 5 years</p>
Land off Dale View, Billington, Clitheroe	EV20	<p>Reserved matters application was approved in January 2000 for 49 dwellings. 35 of these dwellings have been completed. There are 14 dwellings remaining to be completed.</p> <p>Due to the length of time this development has stalled the council does not expect any of these 14 remaining dwellings to be completed in the next 5 years</p>
Land off Waddington Road, Clitheroe	EV25	<p>Reserved matters application 3/2018/0181 was approved for 275 dwellings in February 2019. Development is under way on site and our records indicate there are 94 dwellings to be completed.</p> <p>The authority expects all 94 remaining dwellings to be completed within 5 years</p>

Chapel Hill, Hill Barn Drive, Longridge, Preston	EV36	<p>Full consent was granted in November 2012 with application 3/2011/1071. The site has been the subject of delays in development however most if not all units are largely under construction. Our records indicate that there are 32 remaining dwellings to be completed on this site.</p> <p>The authority expects all remaining 32 dwellings to be completed within the next 5 years</p>
Land East of Chipping Lane, Longridge – Phase 1	EV37	<p>Reserved matters was approved in September 2019 for 124 dwellings through planning application 3/2018/0404. Development has nearly been completed on this phase of the development, with our records indicating there are only 5 dwellings remaining to be completed.</p> <p>The authority expects all remaining 5 dwellings to be completed within the next 5 years</p>
Land West of Preston Road, Longridge	EV39	<p>Reserved matters application 3/2018/0105 was approved in May 2018 for 275 dwellings. Development is underway on site and our records indicate there are 132 dwellings still to be constructed.</p> <p>The authority expects all 132 dwellings to be completed within the next 5 years</p>
Plot 4 Cherry Drive, Brockhall Village, Old Langho	EV42	<p>Application for full consent was granted in March 2020 through planning application 3/2020/0050 for one property. Our records indicate this property has not yet been completed.</p> <p>The authority expects this dwelling to be completed within the next 5 years</p>
Land at Hillside, Brockhall Village, Old Langho	EV43	<p>Application for full consent was granted back in 3/2010/0387 for one dwelling. Our records indicate this dwelling is still to be completed.</p> <p>The authority expects this dwelling to be completed within the next 5 years</p>
The Moorcock Inn, Slaidburn Road, Waddington	EV46	<p>Full consent was granted in May 2018 through application 3/2018/0344 for four dwellings. This amended application 3/2017/0674 which was for the same no. of dwellings. Three dwellings have now been completed, leaving just one remaining dwelling.</p> <p>The authority expects the remaining dwelling to be completed within the next 5 years</p>
Land at Accrington Road, Whalley	EV47	<p>Reserved matters application 3/2016/0344 granted permission for 77 dwellings, which is an extant permission. Information from the agent suggests delivery could start from 2026 and the authority considers completions from 2027/28 at a rate of 20 completions per year to be a reasonable estimate.</p>

		The authority expects 40 dwellings to be completed within the next five years
Land at Wilpshire (Land East of Salesbury View)	EV49	Following a recent appeal decision on this site (3/2023/0614) 75 units is considered to be a reasonable estimate
Land off Hawthorne Place, Clitheroe	EV51	<p>Full consent was granted in December 21 with application 3/2019/1104 for the erection of 58 dwellings. A non material amendment in February 2022 (application 3/2022/0087) reduced this to 57 dwellings.</p> <p>Development has commenced on this site and our records indicate there are 34 dwellings remaining to be completed.</p> <p>The authority expects all 34 remaining dwellings to be completed within the next 5 years</p>
Land at Highmoor Farm, Clitheroe	EV52	<p>Application 3/2020/0601 granted outline consent in February 2023 for up to 125 dwellings. Development has not yet commenced on site, however evidence from the planning agent suggests completions from 2027/28 averaging 25 houses per annum</p> <p>The authority therefore expects 50 dwellings to be completed within the next 5 years</p>
Land South of Laycocks Farm, Langho	EV53	Application 3/2022/0537 granted full consent in April 2023 for the construction of 8 dwellings. This development is now under way.
Brockhall Farm, Brockhall Village, Od Langho, Blackburn, BB6 8BB	EV55	<p>Application 3/2021/0311 granted full consent in August 2021 for the demolition and conversion of several agricultural buildings into 8 residential properties.</p> <p>The authority expects all 8 dwellings to be completed within the next 5 years</p>
The Newdrop, Stoneygate Lane, Ribchester, Preston, PR3 2XE	EV57	<p>Full consent was granted with application 3/2020/0215 for the conversion of The Newdrop Public House into 5 dwellings.</p> <p>The authority expects all 5 of these dwellings to be completed within the next 5 years</p>
Land at Neddy Lane, Billington, Clitheroe, BB7 9LL	EV58	<p>Full consent was granted in October 2022 for 36 dwellings through application 3/2021/0205. Development has commenced on site.</p> <p>The authority expects all 36 dwellings to be completed within the next five years</p>

74 Higher Road and land to the rear, Longridge, Preston, PR3 3SY	EV59	<p>Reserved matters application 3/2021/0556 was approved in May 2022 for the erection of 123 dwellings and demolition of 74 Higher Road (Net gain 122 dwellings). There has been a technical start made on site. Information from Onward Homes confirms completions will be after March 2026</p> <p>The authority expects 122 dwellings to be completed within the next 5 years</p>
Higher Standen Farm	EV60	Site has full permission and the development is expected to be completed within the next 5 years
Old Row Whalley Road Barrow	EV61	Site has full permission and the development is expected to be completed within the next 5 years
