TODBER HOLIDAY PARK       Application 3/2015/0750

Dear Mr. Sharpe,

further to our previous letter regarding 3/2015/0750 we would like to add the following comments. These are based on illustrations and information received from the applicant’s agent after our initial letter was dispatched.

Reference :-

The Presentation Document, section 2 Project Description, paragraph 2.6.

"The individual lodges will be finished with dark roofs and timber clad in a finish appropriate to the local landscape character, and will not appear visually conspicuous."

We were advised by the agent that a cladding known as Canexel had been considered for the exterior finish. It is felt that if the application is to be approved the development would be far less conspicuous if the units were to be finished in a "Soft Green" rather than the "Brown" of timber cladding, be it real or timber effect.

Best regards,  R.A.Whittaker  Chairman R + M Parish Council
